We pursued excellence, Leadership Followed

Kajaria Ceramics is the Largest Manufacturer of Ceramic & Vitrified Tiles in India and 8th Largest in the World.

The motivating factor remains the zeal to be the best, to be at the top, and to achieve the highest echelons of excellence.

The manufacturing units are equipped with cutting-edge technology consisting of intense automation, robotic car application, and zero chance for human errors - these are just a few reasons why Kajaria remains at the top of the industry.

The best in providing tile solutions, Kajaria has grown stronger with its hard work, innovation, and patronage from our discerning customers.

Slip and fall incidents rank as the second most common cause of accidental and unintentional injuries.

These types of injuries are particularly prevalent in both home and workplace environments, posing significant risks to individuals of all ages. The medical expenses associated with slip and fall injuries are exceedingly high.

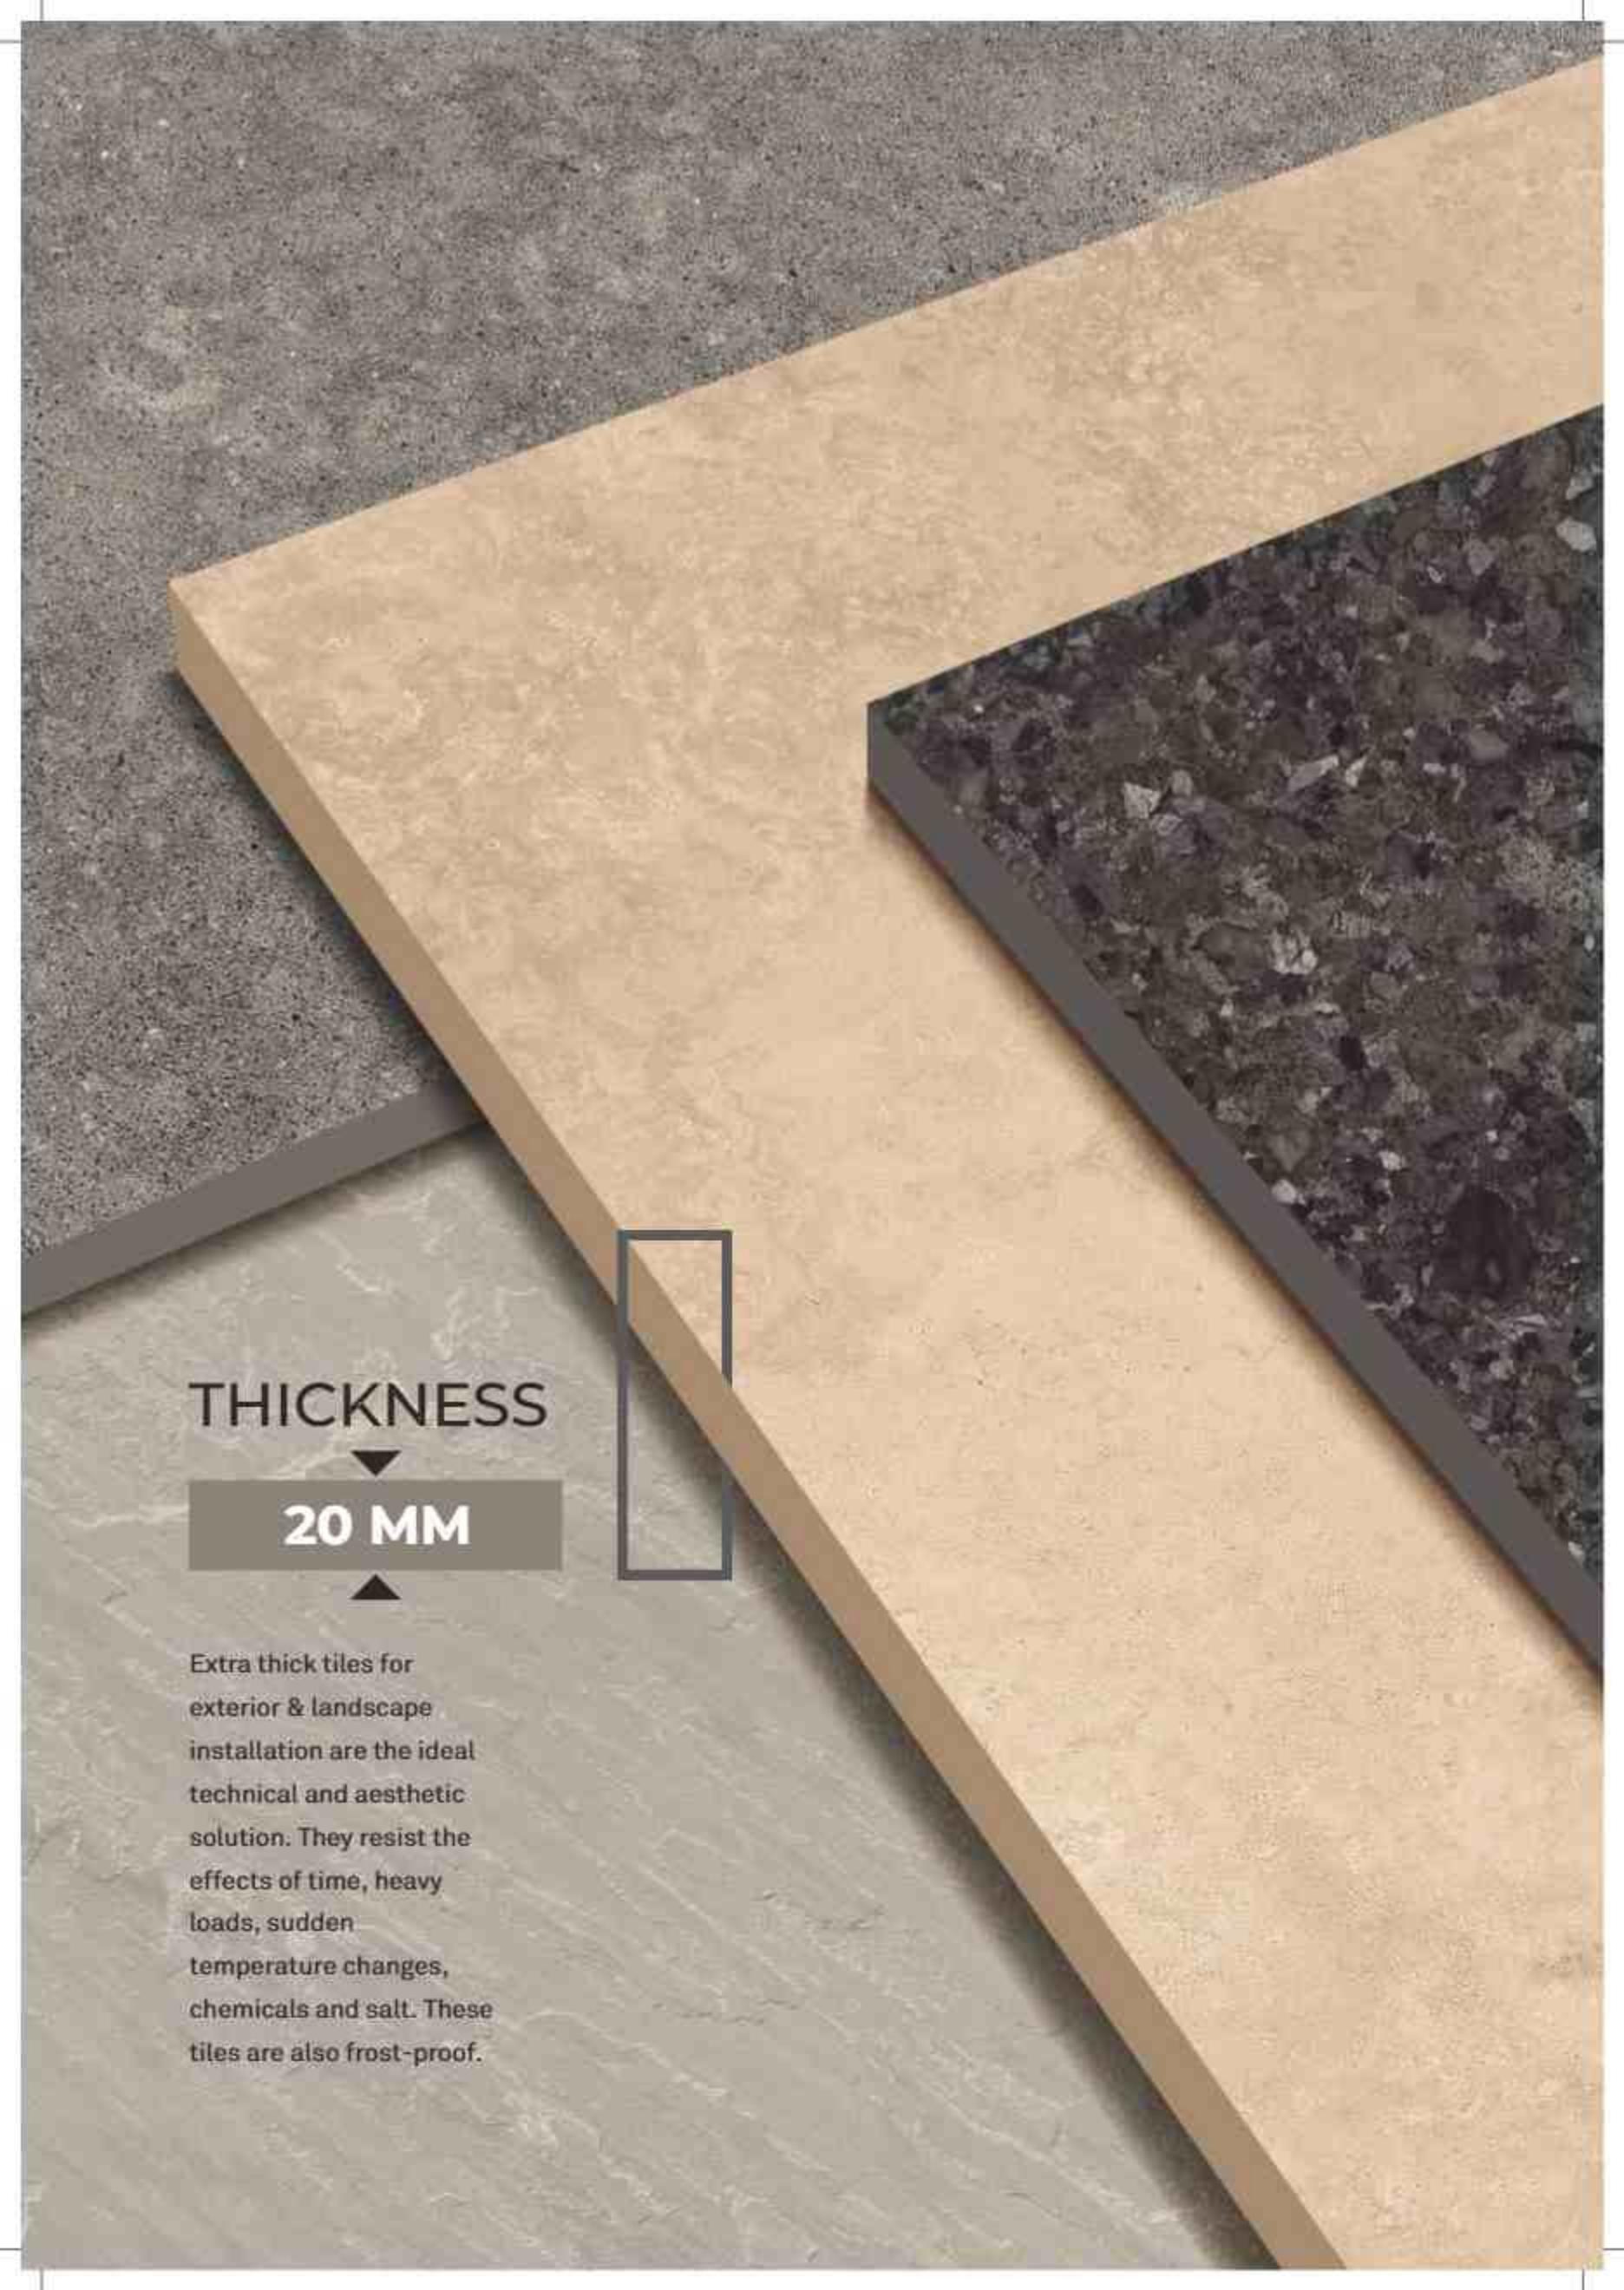

ANTI SKID R11 SURFACE WE CARE FOR YOU

Anti Slip Glaze

Slip Resistant upto 27°

Textured Surface-Increases Friction

Endure harsh weather conditions

THICKNESS

20 MM

Extra thick tiles for exterior & landscape installation are the ideal technical and aesthetic solution. They resist the effects of time, heavy loads, sudden temperature changes, chemicals and salt. These tiles are also frost-proof.

VERY HIGH BREAKING STRENGTH

▼ ▼
>8000N

Withstand loads
of up to 75 tonnes

With a breaking strength exceeding 8000 N and a thickness of 20 mm, these tiles demonstrate high performance. The zero-maintenance, heavy-duty tiles efficiently transfer large loads to the bedding without breaking, ensuring exceptional durability and reliability.

ANTI SKID WITH R11 SURFACE

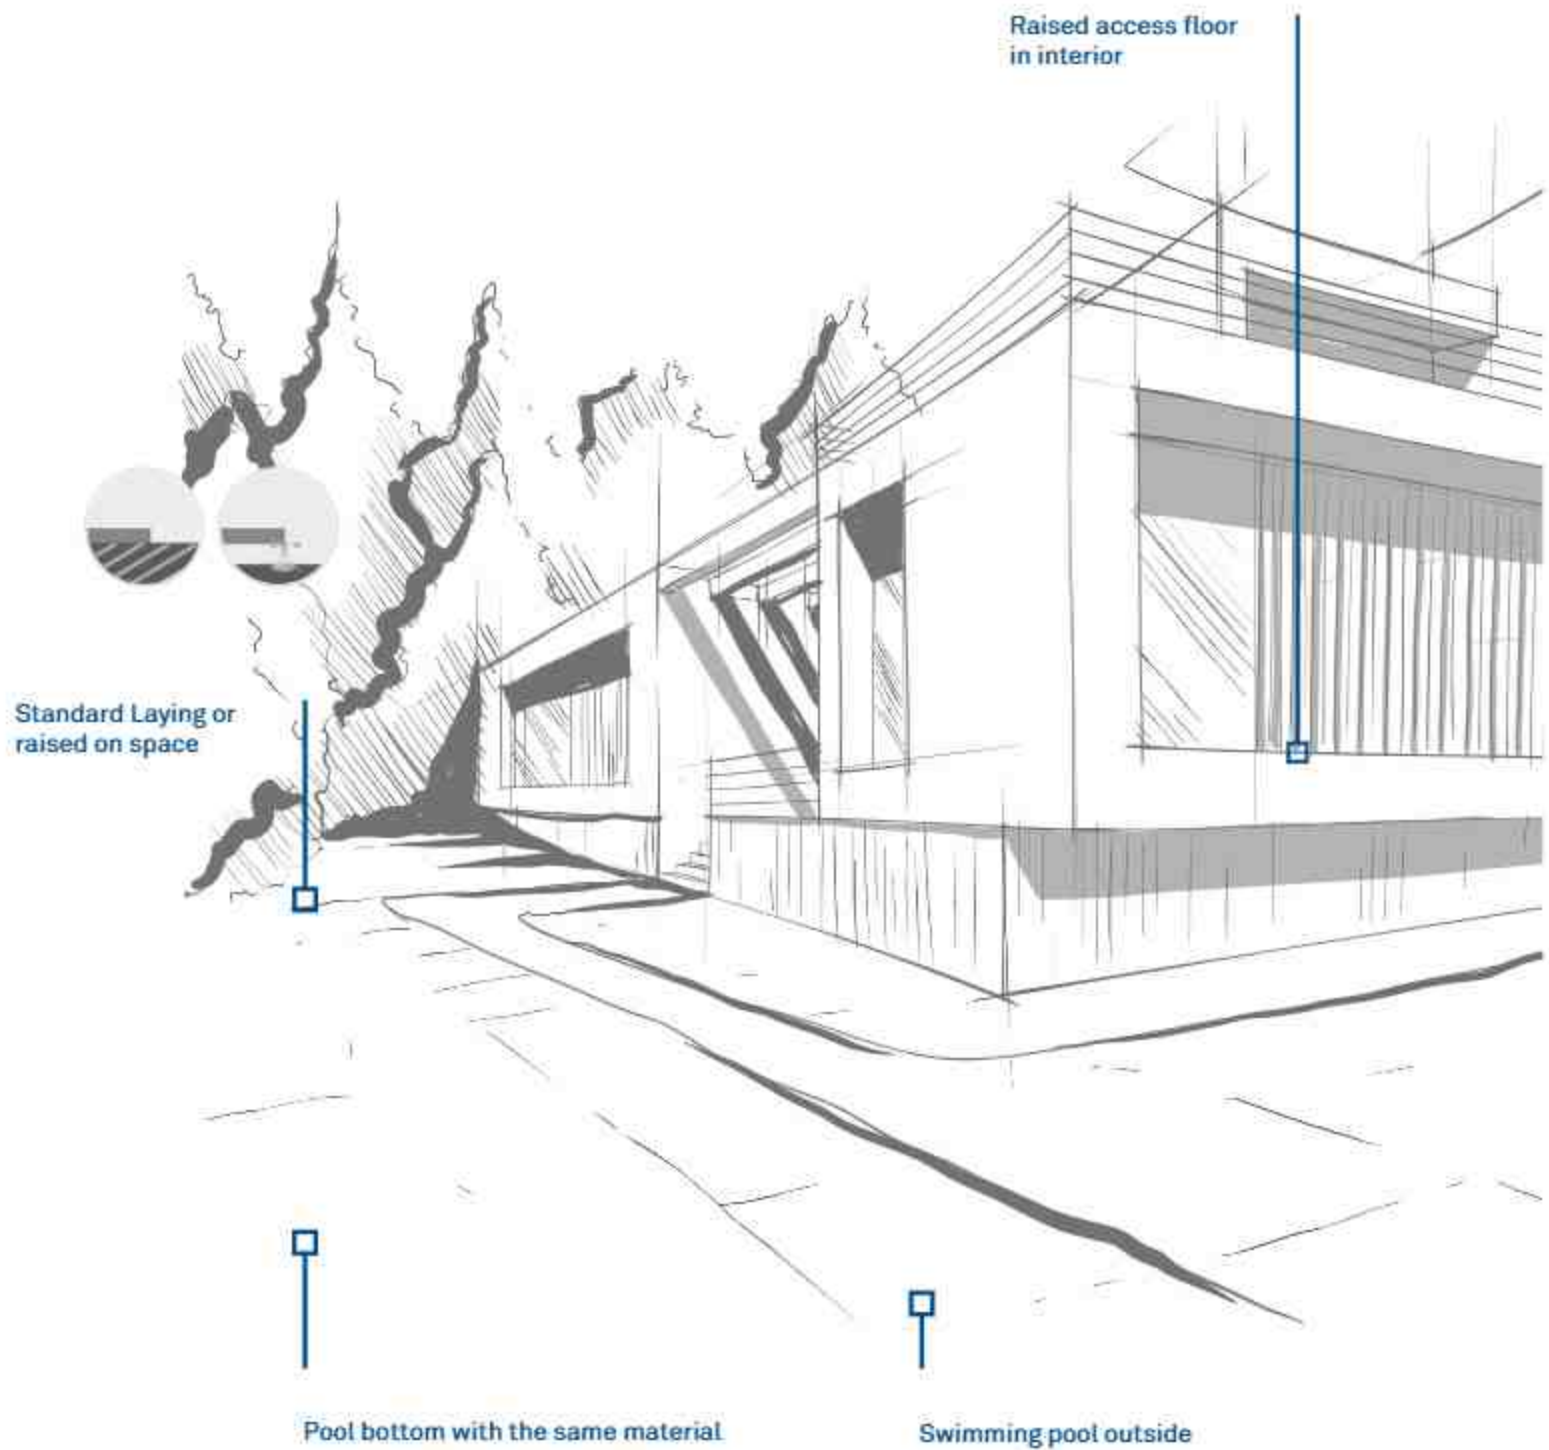

R-11, the Anti-Skid surface, meets the growing demand for vitrified tiles in high-performance environments. Ideal for wet areas exposed to moisture, outdoor flooring, frequently used floors, and high-traffic zones, R-11 Anti-skid tiles enhance safety without compromising design. This finish roughens the tile surface while maintaining a cohesive visual appearance in various spaces.

			
Grade	R11 Surface	R10 Surface	R9 Surface
Acceptance Angle	$19^{\circ} \leq \alpha < 27^{\circ}$	$10^{\circ} \leq \alpha < 19^{\circ}$	$6^{\circ} \leq \alpha < 10^{\circ}$
Slip Risk	Low Risk	Medium Risk	High Risk

ADVANTAGES

The interaction between design and performance is crucial in shaping contemporary vitrified. This dynamic relationship is also reciprocal: an outstanding vitrified product, when used and tested in advanced contexts, provides valuable insights into aspects such as safety, resistance, hygiene, and versatility. Our XSTONE tiles exemplify this synergy by incorporating unique mechanical patterns that ensure each product is unalterable, fireproof, non-toxic, and recyclable. These characteristics represent the pinnacle of sophistication, offering unmatched durability and performance.

COMPARISON

Main Distinctions

Criteria	 DURATECH Xstone OUTDOOR VITRIFIED PAVERS	NATURAL STONE
Cost	Generally more affordable	Can be more expensive
Installation Process	Relatively easier to install due to uniform shape and size.	Requires expensive installers due to natural variations in shape and size.
Durability	Highly durable, with resistance to scratches, chips, and wear.	Stones varies in durability, with some being more susceptible to damage.
Stain Prevention	Vitrified's non-porous surface makes it highly resistant to stains.	Natural stone may require sealing to prevent stains from absorbing.
Moisture Resistance	X Stone is highly moisture-resistant, suitable for areas prone to moisture.	Natural stone may require additional sealing to maintain moisture.
Appearance	A wide range of colors and patterns, ability to mimic natural stone.	Distinctive natural variations in color, veining, and texture.
Maintenance	Low maintenance, requiring simple cleaning	require more maintenance, including regular sealing and specialized care.

Technicals

S.No.	 DURATECH Xstone OUTDOOR VITRIFIED PAVERS	NATURAL STONE
1	Even Size	Uneven size
2	Consistency in colour	No consistency in colour
3	Uniform thickness	Uneven thickness
4	Colour / wide range of design options	No color options
5	Anti Slip property (R-11)	Slippery (R-9)
6	a) Breaking Strength >8000 N b) MOR : 45N	a) Breaking Strength approx. 4000 N b) MOR : 20 N
7	Scratch Resistant Level : Mohs - 9	Scratch Resistant Level : Mohs-6
8	Stain Resistant / Chemical Resistant : High	Stain Resistant / Chemical Resistant : Low
9	WA: < 0.08% (As per EN Standard)	WA : 0.2%

24.	Chemical Resistance HIGH CONCENTRATIONS ACID & ALKALIES	Test method available	Required	Conform to classes-GHB*	ISO 10545:13/IS:13630 (P-8)

- Skid resistance value can be provided according to test method used & surface finish, also area of use.
- KAJARIA 20 mm tiles have resistance to most of the stains/chemicals but it is recommended to take due care while laying and for day-to-day maintenance.
- We recommend to cover the surface with polythene sheet or any other suitable source before any wall or furniture painting work starts so that beauty of tile surface remains forever.
- Resistance to acids & alkalies (Exception Hydrofluoric acids & its Compounds)
- Colours in the catalogue are as accurate as printing process allows. Please check actual sample before making the final selection.
- Sizes mentioned in the catalogue are nominal sizes only.
- No claim will be entertained once the Tiles are fixed.
- *- For better laying, Please follow the instructions on the packaging box.
- Please make sure to check the shade/finish with the sales agent/ dealer making the final purchase because there might be variation in actual finish that shown in the catalogue. The company will not bear any loss in such case.
