Luxurious

#### HD-POLISH

Polished glossy tiles that are reflective, stain-resistant, low-maintenance, and premium surfaces.

#### MATT FINISH

Non-polished glaze tiles, randomly textured, non-reflective, scratch-resistant, and low-abrasion surfaces

#### HIGH-GLOSS

Mirror-like reflections are visible in the design. Depth and sharpness in printing provide rich and extremely reflective gloss visibility.

#### CARVING

With scattered carvings randomly distributed across, resulting in a partially glossy and matte appearance.

#### DEAD MATT

Dead matt, non-reflective smooth surface with textured veins crafted using transparent yet shiny ink, which becomes reflective at certain angles.

#### DRY GRANULA

Granular textured surface with a touch and feel similar to a jute carpet, providing added grip while remaining soft and easy to clean

#### DIGI MATT

Full digital application tile with no top glaze. Transparent and shiny printing ink is used to create a depth-like effect on the smooth surface

#### MARBLE FINISH

Appearance of used Italian marble flooring, featuring a granula, soft, & smooth, non textured surface that doesn't show any fingerprint marks.

### Fast and Economical

GRESBOND Premium Tile adhesive can be easily applied over large areas with a notched trowel.

### Easy to Work with

GRESBOND High-quality tile adhesives for wall application have good non-slump properties. The freshly laid tiles therefore do not slip on the wall. It is thus possible to lay the tiles from top to bottom without using spacers. This makes it easier to produce a uniform pattern.

### Excellent Results

GRESBOND advanced premium adhesives are so easy to mix and install that good results are consistently achieved.
